

Questionnaire of utility of implemented public projects by LAG ROZVOJ Krnovska o.p.s. in period 2007-2013

Hereby, I humbly plead you to answer questionnaire below with patience and your expertise based on results obtained from your projects' evaluations executed during evaluation year 2014 and your experience. Your answers will serve as source material for elaboration of my master's thesis *Efficiency of public development projects LAG ROZVOJ Krnovska o.p.s. in time period 2010-2014*. This thesis shall also in its final form serve to needs of Local Action Group in order to improve process of project selection and evaluation in future programming period, with focus on criterion which have proved to be identified in projects of examples of good practice in period 2007-2013. Your knowledge and expertise is of a high value for the results of my diploma thesis, therefore please present your answers based on empirical evidence of your own work and knowledge of evaluated projects. Questionnaire is individual as for the purposes of the diploma thesis your answers „the expert group“ will be given in each project individual weights according to level of each of your expertise.

Please provide your answers according to rating scale (1-5) where:

- 1 = not at all
- 2 = rather not
- 3 = on average
- 4 = rather completely
- 5 = completely

Project 1

Name of respondent: _____

1. To what level did the project used financial allocation effectively?
