Other comments or suggestions:

The thesis deals with the topic: Startup Software Company Providing Database Services and Agile Methodologies.

The work has many shortcomings. English is not good. Typography is really bad. I guess no one checked it? As a result, there is the absolute illegibility of the whole work.

The work contains many unclear artefacts. For example figure 3.6 on page 39, what is the meaning of this scheme?

The same is with the figure 4.1 on page 41!? With an apology, this is absolute nonsense. The student does not know any diagrams UML and their use!

In view of the diagram 4.2, it is clear that the student does not know the difference between state and activity. Simply put, none of the diagrams in this work is not right.

I strongly recommend refusal submitted work.

Questions for thesis defence:

- 1) Strana 20, Figure 3.3, what is meaning of this diagram and why is not referenced in the text?
- 2) Please describe in details activity and state diagram UML.
