

10. List of Appendices

- **Appendix 1:** Laboratory test example number 1, Location: Income BIN
- **Appendix 2:** Laboratory test example number 2, Location: after belt conveyor
- **Appendix 3:** Laboratory test example number 3, Location: after chain conveyor
- **Appendix 4:** Table of Figures
- **Appendix 5:** List of Tables

Appendix 4: Table of Figures

Fig. 3.1: Grain anatomy	13
Fig. 3.2: Light-Duty Belt Conveyor	17
Fig. 3.3: Heavy-Duty Belt Conveyor	17
Fig. 3.4: Screw Conveyor	19
Fig. 3.5: Scheme of work of a screw coil at the inlet to the working passage	21
Fig. 3.6: Scheme of work of a screw coil at the inlet to the working passage.....	21
Fig. 3.7: Inclined screw conveyors	22
Fig. 3.8: Chain conveyor arrangement	24
Fig. 3.9: Bucket elevator	26
Fig. 3.10: Different types of bucket elevator	27
Fig 4.1: Postharvest diagram	46
Fig. 5.1: Belt Conveyor measuring point under the income bin	48
Fig. 5.2: Chain Conveyor measuring points	49
Fig 5.3: Grain damage by chain conveyor, performance 28 t.h ⁻¹	50
Fig 5.4: Grain damage by chain conveyor, performance 12 t.h ⁻¹	51
Fig 5.5: Grain damage by belt conveyor – horizontal transport, output 64 t.h ⁻¹	52
Fig 5.6: schematic breakdown of the mechanical components within a typical belt conveyor	53
Fig 5.7: Conveyor with three-roll stool	54

Appendix 5: List of Tables

Table 3.1: Chemical compositions and energy values of some grains	12
Table 3.2: Chemical composition of wheat grain	13
Table 5.1: Basic technical parameters of the chain conveyor	49
Table 5.2: Grain damage by chain conveyor, performance 28 t.h ⁻¹	50
Table 5.3: Grain damage by chain conveyor, performance 12 t.h ⁻¹	51
Table 5.4: Basic technical parameters of the belt conveyor	51
Table 5.5: Grain damage by belt conveyor – horizontal transport, output 64 t.h ⁻¹	52
Table 5.6: Resulting values of the selected belt conveyor parameters	57
Table 5.7: Belt conveyors' specifications and producers	58
