Other comments or suggestions:

The bachelor thesis is focused on the determinants of on-line shopping and contains both, the theoretical and the practical part.

However, several weaknesses can be found as following.

- The Thesis Assignment is not inserted in required original form (and differs from the original one).
- The extent of the thesis can be considered as border. Even, the Thesis Assignment requires 30 – 40 pages. The thesis hardly reaches the amount of 30 pages.
- The time series used in the practical part could contain more observations.
- Several comments and interpretation of the graphs could be more detailed and sophisticated (e.g. Figure 10). Moreover, the selection of the selected time series for the description its long term tendency is not clear (e.g. Figure 13).
- Finally, the selection of the main determinants is not properly introduced and the conclusions are very weak.

It can be stated that if the author follow the recommendations of the supervisor the thesis would be definitely of higher quality.

In conclusion, the thesis cannot be recommended to defense since it does not fulfill the minimal requirement for the bachelor thesis.

Plagiarism control: The system Theses.cz has not assessed the thesis as suspicious.
