Other comments or suggestions:

The author of the thesis has demonstrated the ability to work independently. The thesis meets the standard requirements imposed on diploma theses in its field. Overall, the thesis is very good, and therefore, in my opinion, it deserves the grade 2. I recommend its acceptance and defense in front of the state exam committee.

Questions for thesis defence:

1-How did the COVID-19 pandemic affect the supply chain and pricing of wheat on the global commodity market?

2-What strategies were implemented by major wheat-producing countries to mitigate the impact of the COVID-19 pandemic on wheat production and export?
