

APPENDICES
LIST OF FIGURES

Figure 1: Sources of Heavy Metal Pollution.....4

Figure 2: The relationship between human performances concerning the concentration of the essential elements in the diet.....5

Figure 3: The aftermath of Zinc pollution in Aquashicola Pennsylvania, USA.....6

Figure 4: Schematic diagram of constructed wetland.....9

Figure 5: Horizontal Subsurface flow constructed wetland.....10

Figure 6: Flow of water through a subsurface flow constructed wetland.....11

Figure 7: Surface flow constructed wetland.....12

Figure 8: Arbuscular Mycorrhizal Fungi.....15

Figure 9: Experimental Pots.....17

Figure 10: HM concentration (mg/kg) in plant root.....26

Figure 11: HM mass content (g) in plant root.....27

Figure 12: HM concentration (mg/kg) in plant shoot.....28

Figure 13: HM mass content (g) in plant shoot.....29

Figure 14: HM concentration (mg/kg) in plant substrate.....30

Figure 15: Total Cd Concentration.....31

Figure 16: Average mass removal efficiency (%) of Cd.....31

Figure 17: Total Zn Concentration (ppb).....32

Figure 18: Average Zn mass removal efficiency (%) of Zn.....33

Figure 19: Total Mn Concentration (ppb).....34

Figure 20: Average Mass removal efficiency (%) of Mn.....35

Figure 21: Total Water Loss (%).....36

Figure 22: Average Water Loss (%).....37

Figure 23: pH value.....38

Figure 24: Oxidation-reduction Potential (mV).....	39
Figure 25: Total Ammonium N concentration (mg/L).....	40
Figure 26: Average rate of Ammonium N mass removal efficiency (%).....	41
Figure 27: Total Concentration of Total N (mg/L).....	42
Figure 28: Average mass removal efficiency (%) of total N.....	43
Figure 29: Average Nitrate N Concentration (mg/L).....	44
Figure 30: Total Concentration of Total Carbon (mg/L).....	45
Figure 31: Average total carbon mass removal efficiency (%).....	46
Figure 32: Total concentration of TOC (mg/L).....	47
Figure 33: Average mass removal efficiency of TOC (%).....	48
Figure 34: Total concentration of Phosphate P (mg/L).....	49
Figure 35: Average mass removal efficiency of Phosphate P (%).....	50

LIST OF TABLES

Table 1: Characteristics of simulated municipal sewage (sample analysis).....	18
Table 2: Intensity of Mycorrhiza colonization (M%) and Arbuscule abundance in the root system (A%).....	22
Table 3: Biomass Content of experimental plant.....	23
Table 4: Nutrient concentration in experimental plant.....	25

LIST OF PLATES

Plate 1: AMF colonization in different treatments.....	22
