Other comments or suggestions:

A very impressive and finely detailed account of the global commercial tourist industry from its beginnings to the present. It's only, minor drawback, is that while it gives a lot of pertinent advice and well-researched tips on what is important for a commercial tourist start-up's business plan these are not collected in a cohesive summary. A fictional example of a business plan, illustrating the points made might have provided a helpful focus.

Questions for thesis defence:

What is the most crucial element of the business plan?

How and who will control the increase in commercial tourism you mention in your conclusion ("...tourist rise must be controlled wisely.")
