Other comments or suggestions:

The topic of diploma thesis is Scoring model for microfinance.

Im missing some clear objectives of this diploma thesis at the beginning. Objectives are described in part 4 Objectives after literature part.

Theoretical part contains the history of microfinance, explanation of microfinance and detail overview of scoring models. It would be good to mention in this part some other factors related

to the microfinance – f.i. state finance support, bank control, etc.

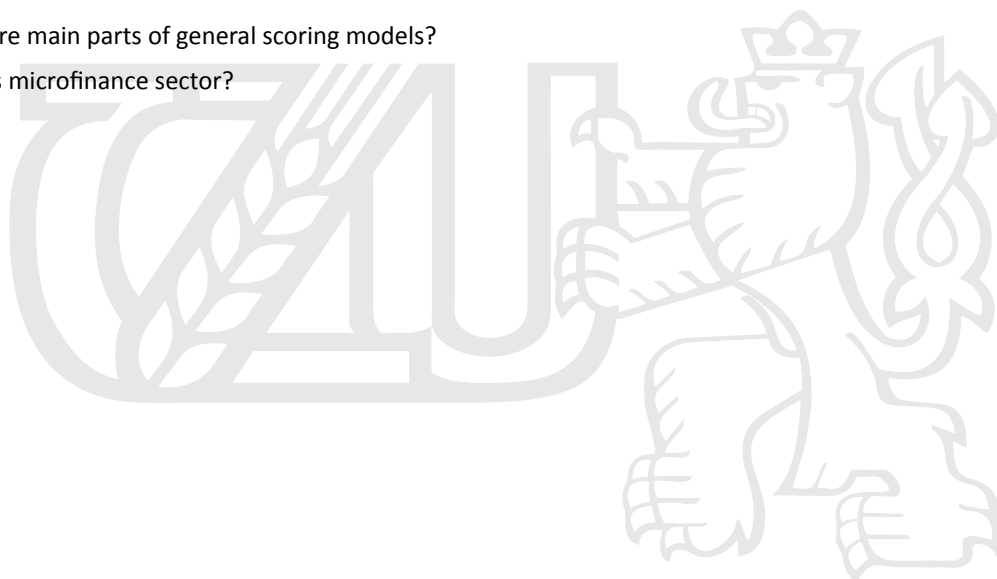

Suggested methodology of scoring model is clear, in some cases very descriptive.

Interpretation of the results (from scoring model) corresponds previous methodology.

Diploma thesis has only 43 pages (without references).

Questions for thesis defence:

1. What are main parts of general scoring models?
2. What is microfinance sector?
