Other comments or suggestions:

Theme of bachelor thesis is very interesting and topic. Water management, water reuse and irrigation are important factors in agriculture policy not only in Syria. Some selected parts of presented bachelor thesis can serve as a good base to solve a problem of the water resources protection in agricultural sector.

Questions for thesis defence:

To the bachelor thesis I have following notes and questions:

- 1) In the title of bachelor thesis. How is the difference between “irrigation sector” and “agriculture sector”?
- 2) In Figure 3 (page 6) I miss legend; in all Tables of chapter Results I miss units and titles.
- 3) How is the efficiency (or lifetime) of the used treatment technologies? What factors influence of the efficiency (or lifetime)?
- 4) How is your own contribution (merit) to your bachelor thesis?
