Other comments or suggestions:

Ms. Zhuldyz Zhumagulova chose a very topical topic.

The student has built the thesis from the five main chapters, particularly from the Objectives and methodology of "Entrepreneurship in Kazakhstan," "Entrepreneurship and its Determinations," "Conditions for establishing and running a business in Kazakhstan," "Research on Entrepreneurship in Kazakhstan" and "Conclusion."

Based on the collection, treatment, and appraisal of data, the student created the results and deliverables of the study.

The thesis could have presented more graphs and tables, which would have supported the study outputs. At the same time, these data in this form are shown in the attached publication sources, which the student presented in References.

The methodology of data collection and treatment with the data are used well.

The deliverables fully correspond with the objectives (hypotheses) and describe the student's methodologies in the thesis.

The thesis has its own informative ability and importance.

From the formal point of view, this thesis has the standard structure required for this thesis category.

The citation structure is very well created in the thesis. Only the list of abbreviations should contain more characters presented in the thesis.

However, this matter does not reduce the value of the thesis.

Ms. Zhuldyz Zhumagulova cooperated well with the supervisor during the bachelor thesis preparation.

The thesis written by Ms. Zhuldyz Zhumagulova complies with the formal requirements, and I recommend it for defense in front of the faculty state committee.

My final assessment as thesis supervisor is: Very Good

Plagiarism control: The system Theses.cz has not assessed the thesis as suspicious.
