Other comments or suggestions:

The diploma thesis focuses on Turkish Education Foundation as a NGO. There is a problem with structure of thesis an overall impression. There is a need to follow logical process according to formulated analysis. The objectives are formulate in an appropriate way, but author should focused more on methodology chapter. There is a lack of description methods and formulas as well used in thesis. The thesis contains a plenty of formal mistakes.

I therefore recommend the thesis for defense.

Questions for thesis defence:

According to the increase trend of non-governmental organization, do you have some recommendations for NGO in Turkey?

Who is next next to the business managers in profiting from financial analysis?
