A scatter plot showing 16 data points marked by '+' symbols. The points are arranged in a grid-like pattern across 8 vertical and 2 horizontal lines. The points are located at approximately (1,1), (1,2), (2,1), (2,2), (3,1), (3,2), (4,1), (4,2), (5,1), (5,2), (6,1), (6,2), (7,1), (7,2), (8,1), (8,2), and (9,1).

A scatter plot consisting of a grid of vertical and horizontal lines. The intersections of these lines are marked with the symbol '+'. The grid is approximately 10 columns wide and 10 rows high, centered on the page.

5	85	5	50	30	10	1	40	20	20	40	80	1		

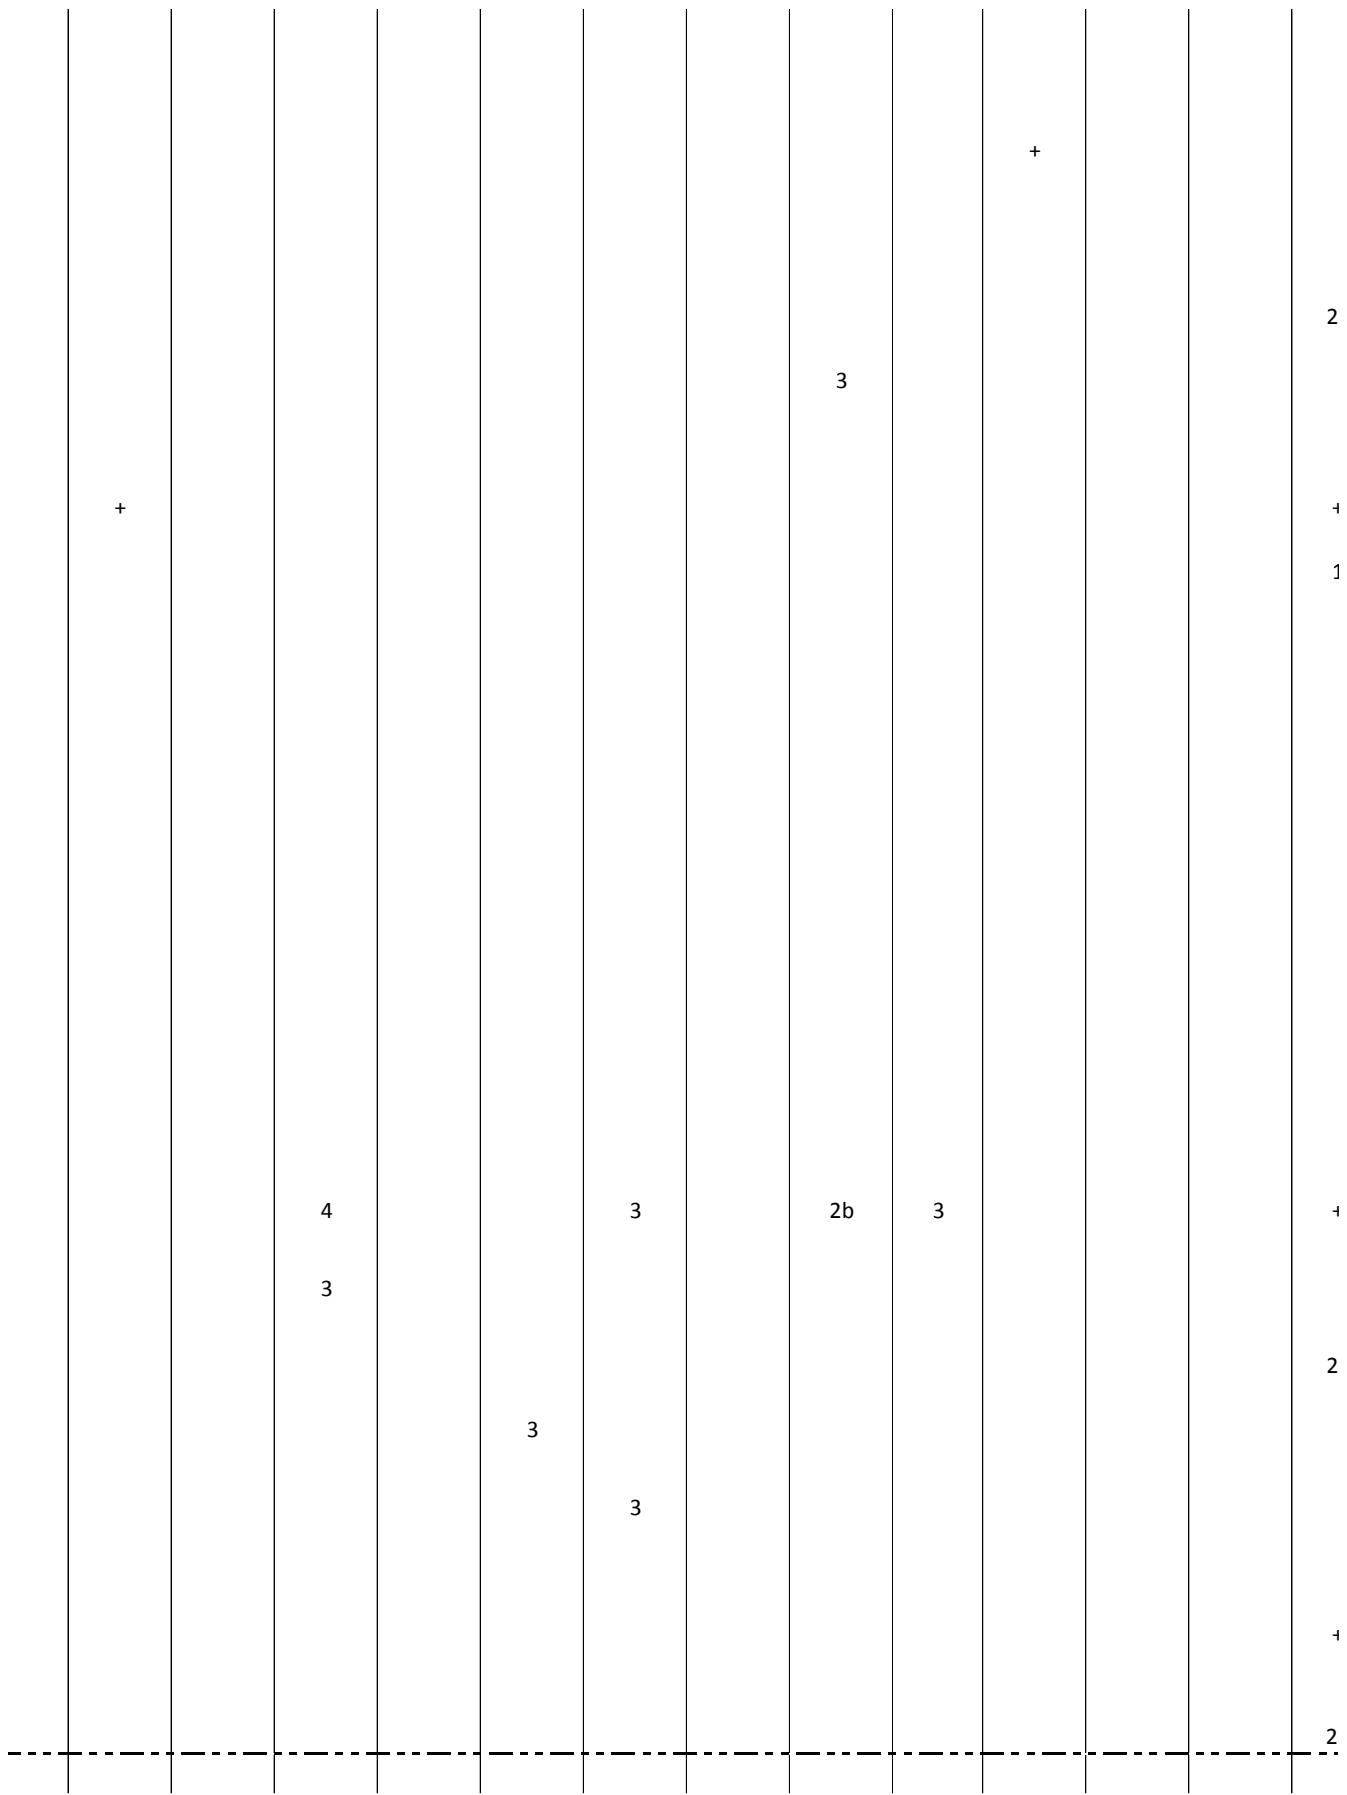

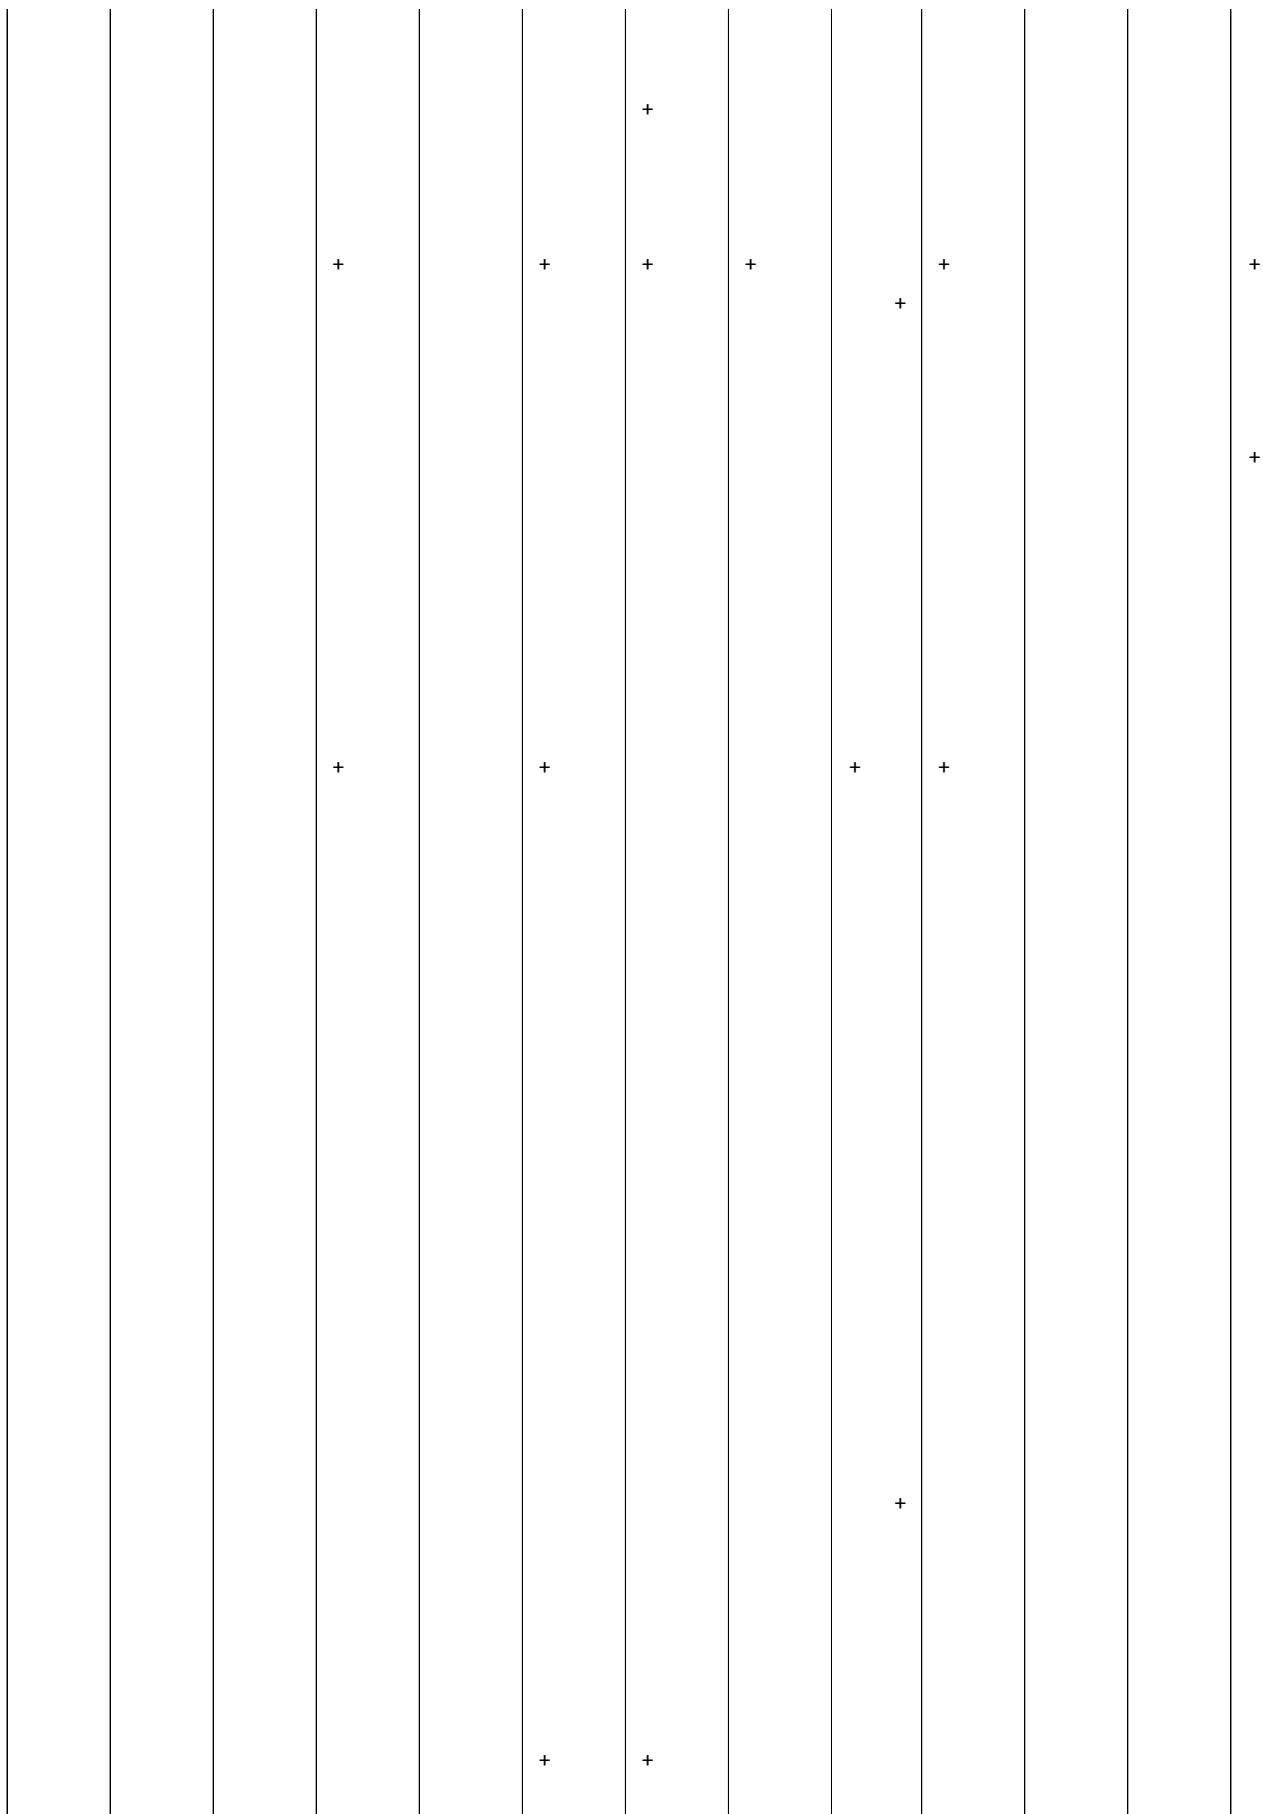

A scatter plot with two data series. The x-axis is labeled with '1' at [100, 210] and '2' at [100, 710]. The y-axis is labeled with '1' at [100, 210] and '2' at [100, 710]. The plot area contains numerous '+' symbols representing data points.

A diagram illustrating a grid structure. The grid is defined by vertical and horizontal lines. The intersections of these lines are marked with '+' signs. There are several '+' signs labeled with numbers:

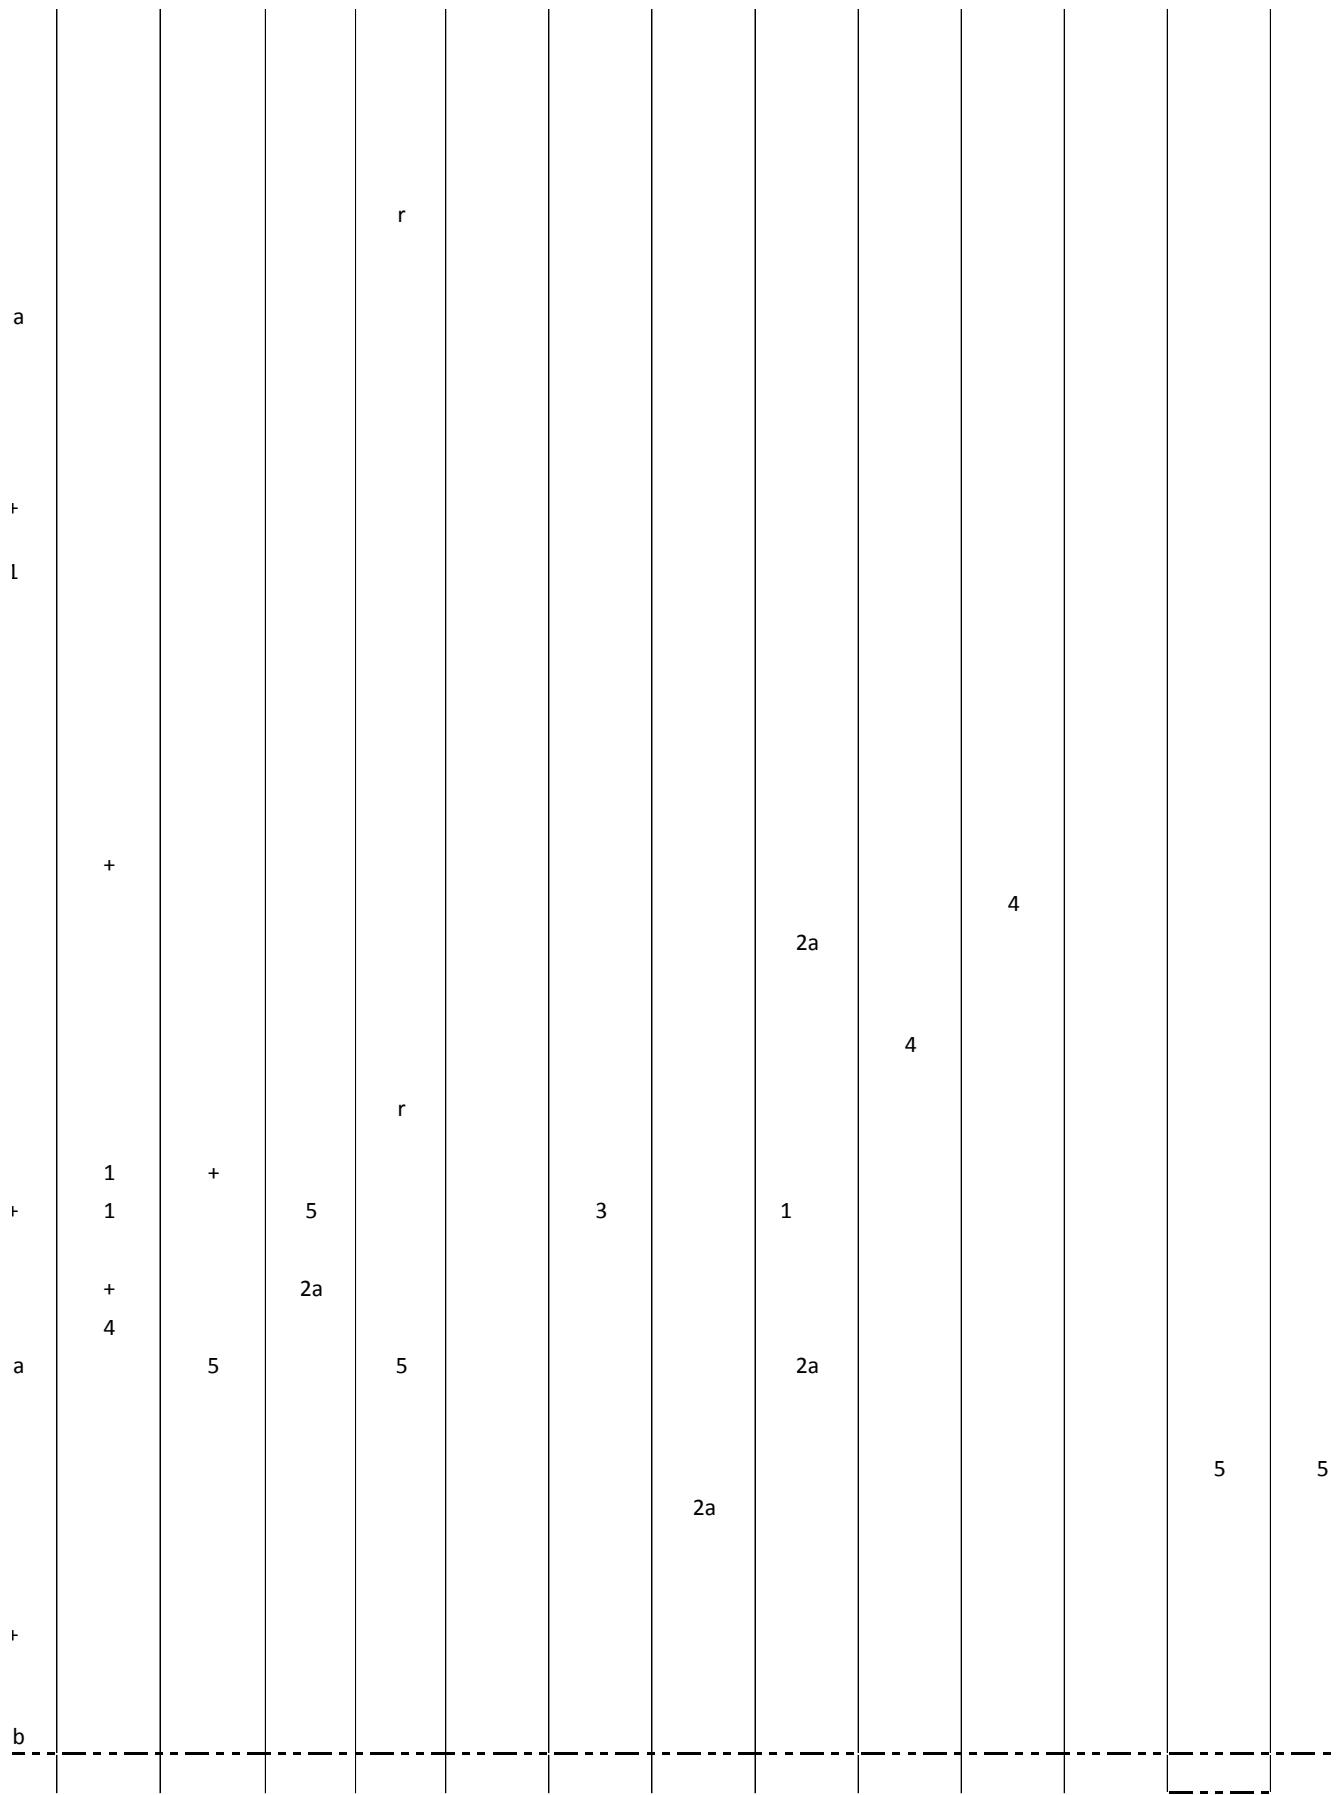

- '1' is located in the upper right quadrant.
- '2a' is located in the middle right quadrant.
- '3' is located below '2a'.
- '4' is located in the center of the grid.
- There are additional '+' signs along the bottom row, which are not explicitly labeled.

A diagram consisting of several vertical bars connected by horizontal lines. The bars are labeled with '+' signs at various points. Below the bars, labels 2b, 3, 1, and 2b are positioned under specific bars.

The labels are:

- 2b (under the first bar)
- 3 (under the second bar)
- 1 (under the third bar)
- 2b (under the last bar)
