Other comments or suggestions:

The thesis deals with the current and very extensive issue of foreign trade with agricultural products of India in conditions of East Asia region. The goal of the thesis is formulated very broadly with a number of sub-goals, which are not structured, and it is reflected both in the text and in the formulated conclusions. It should also be appreciated that the thesis uses a large amount of data. However, the processing of both text and data shows partial deficiencies that reduce the final assessment.

Questions for thesis defence:

1. What suggestions can be formulated based on your analyses for foreign trade regulation in India ?
2. How can the main impacts of Covid 19 on the development of India's foreign trade in agricultural commodities be summarized.
3. Based on your analysis, how would you formulate the main recommendations for India's agricultural policy?
