**Other comments or suggestions:**

The bachelor thesis deals with the topic focused on investment climate in Bahrain. The thesis is adequate in scope. Overall, it is more descriptive than analytical, but this may be acceptable in the case of this type of bachelor's theses. The formal shortcoming is the absence of explicit formulation of the objectives and methodology. I find this omission in insufficient communication with the supervisor. For this reason, it also seems problematic to draw conclusions and meet the objectives of the thesis. Nevertheless, the author has proven the mastery of basic principles in elaborating scientific work.

**Plagiarism control:** The system Theses.cz has not assessed the thesis as suspicious.
