Other comments or suggestions:

Mr. Zeinalabdein Alali selected an intriguing topic for his thesis, which he approached from an economic perspective, rather than solely from a technical standpoint.

Mr. Alali utilized reliable sources, particularly the Global Solar Atlas from the World Bank. The thesis' outputs align with the stated objectives and methodology. The results are a valuable contribution to the field. The thesis is informative and significant. It has the requisite structure for this category of thesis.

The technical section was concise and focused on the essential points, avoiding unnecessary details.

The results were analyzed according to mathematical equations, thus ensuring the reliability of the results. The thesis was written by Mr. Alali and complies with all formal requirements. Therefore, I recommend it for defense in front of the faculty state committee.

My final assessment as thesis supervisor is that the thesis is very good.

Plagiarism control: The system Theses.cz didn't find similarities in the thesis.
