**Other comments or suggestions:**

It is hard to write this review as there was literally no contact with the student. Several times she mentions in her thesis words: paper and article. Was the student aware that she is writing a Master's thesis and not a paper? While some parts of the methodology and results are OK, overall the thesis does not fulfil requirements of the FEM CULS in terms of the required pages. Also, the abstract and keywords are completely missing. I think this is an unfinished research paper that still needs a lot of work and was submitted by some error and therefore I cannot recommend it for defense as a thesis with me as as supervisor.

**Plagiarism control:** The system Theses.cz has not assessed the thesis as suspicious.
