Other comments or suggestions:

Main aim of the theses has been quite challenging and promising, including 2 in-depth interviews about agricultural business challenges and development programmes offered by international institutions in Kyrgyzstan. In discussions with the author we talked about collecting some economic data, financial data about the business. Those data are not mentioned at all.

The communication with the Student was complicated and I have to say, that the theses had been finalised under time pressure. I did not have enough time to provide relevant consultations, advices and comments.

Some chapters seems to not be finalized, logical progress is not always present. The value added is rather limited.

The reason why I send the student to the FSE is that i would like to ask FSE to independently assess whether the quality is acceptable or not.

Thank you.

Plagiarism control: The system Theses.cz has not assessed the thesis as suspicious.
