Other comments or suggestions:

I would like to praise her diploma thesis and the scope of the work. She presented an important topic during this period, after the epidemics that spread recently, and the goals and methodology were clear, and the scientific sequence was logical.

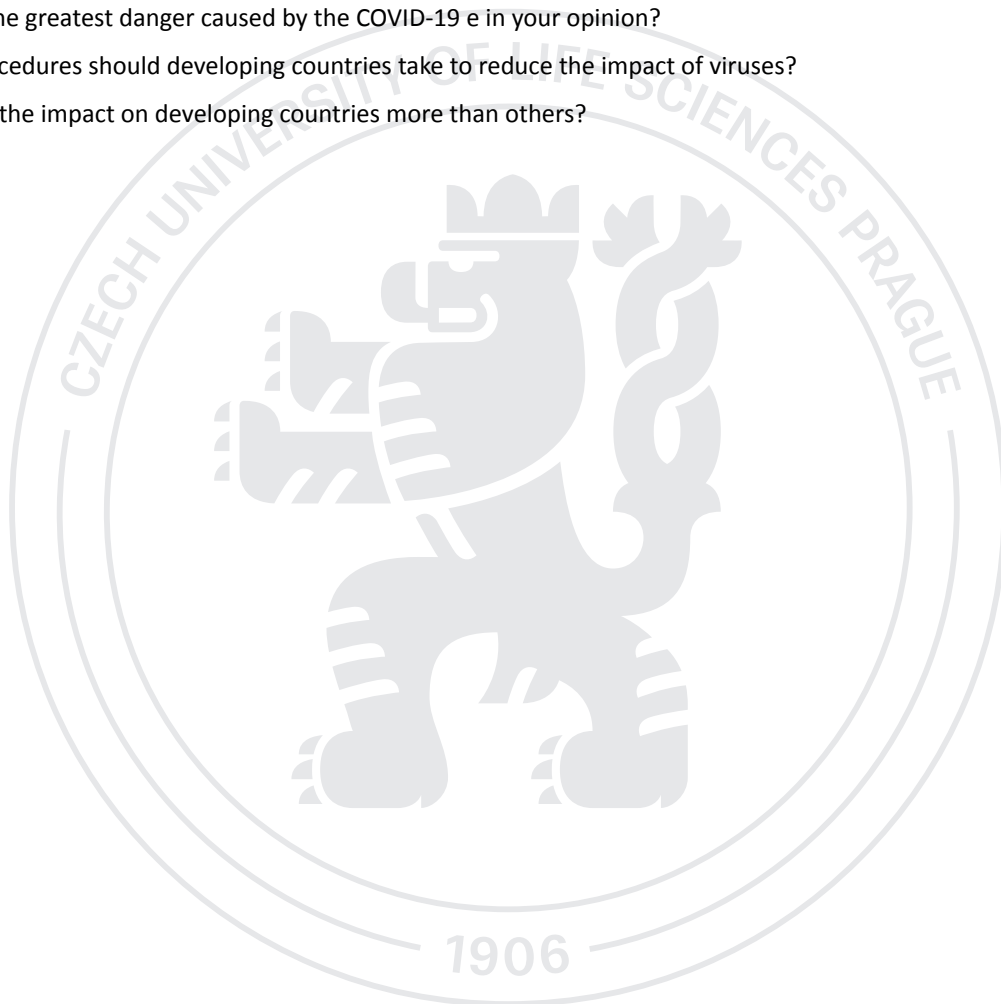

The student has built the thesis from the eight chapters, from Introduction to References.

Questions for thesis defence:

What is the greatest danger caused by the COVID-19 e in your opinion?

What procedures should developing countries take to reduce the impact of viruses?

Why was the impact on developing countries more than others?
