**Other comments or suggestions:**

The diploma thesis brings many interesting findings and has a real impact on practice. Figure 3 and 4 is poorly readable. Why Figure 6 and 7 does not have its own processing. Figure 8, 9 and 10 is table. Tabeles are not cited. There are few references in the text. References are not in citation style.

**Questions for thesis defence:**

1. What analytical tools may be used for analysis of time series of financial data (zinc commodity)
2. What is the legal status (ownership) of mineral reserves in Caledonia and how would it change after possible independence?
